

Mr Mark Louge

2020 Physics Teacher
of the Year Award (IPO)

Mr Mark Logue 2020 Physics Teacher of the Year Award (IPO)

Inside the classroom Mark is an outstanding practitioner, and his sense of fun and enthusiasm is well known, as he actively engages students with great skill and style.

Former pupils and parents testify to the exceptional care and help Mark supplies outside of the classroom with extra lessons, access courses, extracurricular activities such as competitions and visits, and for the wider community conferences and science festivals for both primary and secondary pupils in the area, with the result that Mark's reputation extends far beyond the school.

As head of department he works tirelessly to provide materials for the department and generously supports colleagues with his time and effort, and is seen as a true role model.
